**You have qualified for our small business discount on your primary Blue Book membership, and this has been applied to your current invoice.**

Blue Book members with annual sales under \$10,000,000 are entitled to these savings. Your most recent financial statements have been reviewed to confirm that your company qualifies.

This must be verified each year by providing your annual balance sheet and income statement. This information will also continue to be used to assign your business a Credit Worth Rating in the Blue Book.
